A Very Important Message Concerning Our Corseting

Our anatomic and economic knowledge concerning CORSETS is candidly given to customers with the conviction that it will materially contribute to their health, beauty and comfort, if properly observed,

Few women are really CORSET wise. That's all the more strange when we remember that nearly all women require the aid of CORSET art to secure the ideal figure.

You don't mind how much time and thought you let the selection of a gown or a hat consume. But you see a CORSET on a wax form and its style or lines pleases you -- and you buy it. That's the usual way. But not here, WE WILL NOT SELL YOU A CORSET in any such slip-shod manner. In any other part of the store you are entirely free to do your own choosing without let, hindrance, suggestion or advice from our people. But when it comes to CORSETS we prefer that one of the conditions of purchase be that our corsetiere be permitted to give you the model your FIGURE NEEDS instead of the one your EYES LIKE.
